

## POS Feature | Gift Cards

Generate sales by providing customers the option to purchase and use gift cards. Business owners receive full control of the gift card management program, from permission sets to performance reporting. Gift card service providers handle the production and customization of a business' gift cards according to their liking.

Ask about our Gift Card Reporting and how you can track each customer's card usage.

### Flat Rates

While most providers charge a percentage for gift card usage, Gift Cards managed via Revel offer a \$25/month flat rate for unlimited usage.

### Card Swipe Integration

Gift cards are fully integrated with our card swipes to ensure quick and smooth transactions.

### Intelligent Reporting

Track the usage of each gift card in real-time.

### Customer Profiles

Link gift cards specifically to a customer profile. Keep contact information of gift card users for future reference.

### Money Now

Process and receive payments from gift card purchasers immediately before card usage.

### Eco-friendly

Go green and provide a cardless gift card program.
